The Arabs represent the largest, most diverse, and most politically influential Muslim ethnic grouping in the world. While there are several characteristics that determine whether or not a person is a true Arab, one trait is always evident: a proud sense of being an Arab. Their physical, geographical, and religious aspects all vary greatly, and their traditional culture is becoming more and more diluted due to secularization. However, the ability to speak Arabic (or an Arabic dialect) and identification with the Arabian cultural heritage are, perhaps, the two most essential elements.

The historical link between Arabs and the Islamic religion is still very strong. Today, most Arabs are Muslims, belonging to a number of sects. Many are very outspoken against Christianity and there are many barriers that separate them from Jesus. There is limited knowledge and many misconceptions about the person of Christ in the Muslim Arab community.

- Pray that God will raise up faithful intercessors who will stand in the gap for the Arabs.
- Pray that God will raise up strong local churches among the diaspora Arabs and God will continue to strengthen, encourage and protect the small number of Arabs who have decided to follow Christ.
- Pray that the softening of their traditional culture will create open doors for the Gospel to reach them.

“Ah, Sovereign LORD, you have made the heavens and the earth by your great power and outstretched arm. Nothing is too hard for you.”
Jeremiah 32:17
